

DOC 3 · Question Standards

Version: v1

Purpose: Define WHAT makes a good question.

Questions are assets.

Bad questions destroy trust.

Principles

S1 Participation First

Users should WANT to answer.

S2 Experience First

Prefer:

used

visited

experienced

Avoid: guessing.

S3 Result Worthiness

Ask only if result can become interesting.

S4 Low Effort

Prefer:

1–2 lines

simple interaction

mobile friendly

S5 Skip Always Allowed

Never force.

S6 Visualization Awareness

Question should know:

possible outputs

before launch.

S7 Discovery > Validation

Questions should reveal.

Not confirm.

S8 Transparency

Visible:

votes

sample size

Optional: weighted.

S9 Bias Tolerance

Assume imperfect answers.

Reduce impact.

Not eliminate.

Reject

Boring

Too technical

Requires expertise

Needs long explanation

No visual payoff

Builder Challenge

Can question become shorter?

Can result become better?

Can interaction improve?

Challenge everything.
